Frontend Engineer with 5+ years of experience building scalable, performant, and user-centric web applications using React and TypeScript. Experienced across the full development lifecycle, including feature conception & planning, frontend architecture, state management, testing, CI/CD, deployment, and monitoring, with strong GraphQL and design-system expertise. AWS Certified, with a design background and growing skills in AI-powered development.

WORK EXPERIENCE

Frontend Engineer

sonnen GmbH — Berlin, Germany **12.2022 – 01.2026**

- Developed Toolbox, a B2B microfrontend dashboard (React, Vite Module Federation, GraphQL). Contributed to all project phases: microfrontend architecture research, tech stack selection based on business requirements and trade-offs, PoC, ADRs, CI/CD setup, AWS hosting, CloudFront configuration, MVP development and release.
- Bootstrapped, developed and deployed Tariffs, a B2C energy contract purchase flow (React, Vite, GraphQL) with i18n localization (POEditor), implemented modern CI/CD pipeline with GitHub Actions, integrated Sentry, Google Analytics, and guided frontend architecture decisions.
- In addition to ongoing feature development, I ensured accessibility compliance with WCAG 2.1 AA and 80% test coverage, and onboarded new team members to project.
- Improved Tariffs performance with Lighthouse audits, decreasing load times by 25% via code-splitting, lazy loading, and asset optimization.
- Led tech stack research, onboarded design team on atomic design methodology, built web-ui design-system library (90% coverage) and deployed Storybook to S3 resource.
- Maintained Partner Portal, a legacy application (React, Redux, RxJS, Sass, Webpack, REST), developed features and drove code refactorings to improve code quality and maintainability.
- Drove engineering quality through thorough code reviews, focused on enhancing best practices, readability, and maintainability, as well as domain knowledge transfer, and mentored junior engineers.
- Filled cross-functional gaps in a fast-moving team: clarified business requirements, wrote tickets, led refinements, and partnered with design and QA on UI and user flows.

Software Engineer Consultant

Futurice GmbH — Berlin, Germany **08.2021 – 11.2022**

- Acted as a consultant on several projects, working with clients across Europe: with Red Bull München on their website (a server-side rendered application), with Royal Unibrew (Denmark) and Hartwall (Finland) on a B2B mobile application.
- Gained experience in the recruiting process and contributed to the Dev Breakfast, a knowledge-sharing initiative for developers across different projects.

Junior Fullstack JavaScript Developer
Aaron.ai — Berlin, Germany **01.2021 – 07.2021**

- Owned features end-to-end as feature owner, developer and requirements engineer, aligning stakeholders on business and technical constraints.
- In the absence of dedicated design team, leveraged my UI/UX skills and worked on the design as well as on the frontend implementation.

Graphic & Interior Designer
Bucharest & Berlin **2009 – 2019**

- 10 years in interior and graphic design — foundation for current product and UX sensibility (3D modelling, CAD drawings, conceptual phase, supervising construction sites etc.)

SKILLS

Languages: TypeScript, JavaScript, HTML/CSS
Frameworks: React, Redux, RxJS, Context API, Sass, styled-components, GraphQL, Next.js, Node.js
Architecture: Microfrontends, Design Systems, Accessibility, Responsive Design, i18n, REST
Testing: Jest, Vitest, React Testing Library, TDD, Cypress
DevOps & Cloud: Vite, Webpack, GitHub Actions, GitLab CI, AWS, LaunchDarkly
Other tools & tech: Storybook, Figma, Jira, Contentful, Cloudinary, POEditor, Sentry, Google Analytics

CERTIFICATIONS

AWS Certified Cloud Practitioner (October 2021)
AWS Certified AI Practitioner (September 2026)
AWS Certified Solutions Architect – Associate (October 2026)
AWS Certified Developer – Associate *(in progress, expected December 2026)*

EDUCATION

Full Stack Web Development Bootcamp — Spiced Academy, Berlin (2020)
Computer Science — Technische Universität Berlin (2018–2020)
BA, Interior Design — National University of Arts, Bucharest (2007–2010)

LANGUAGES

English — fluent | **German — fluent** | **French — professional** | **Romanian — native**
2012 - IELTS Academic | 2004 - English Translator Diploma | 2003 - Cambridge Certificate | 2017 - TestDaF C1 for German
