https://www.new.ioanatatu.com

Frontend Engineer with 5+ years of experience building scalable, performant, and user-centric web applications using React and TypeScript. Experienced across the full development lifecycle, including feature conception & planning, frontend architecture, state management, testing, CI/CD, deployment, and monitoring, with strong GraphQL, design-system and accessibility expertise. AWS Certified, with a design background and growing skills in AI-powered development.

WORK EXPERIENCE

sonnen GmbH — Berlin — December 2022 - January 2026

Frontend Software Engineer

Toolbox — *Modern dashboard for sonnen partners.*

- B2B **microfrontends** application built with Vite Module Federation plugin hosted in a GitHub **monorepo** and deployed to S3 served through AWS CloudFront.
- Contributed to all project phases: microfrontend architecture research, tech stack selection based on business requirements and trade-offs, ADRs, CI/CD setup,**AWS hosting**, CloudFront configuration, MVP development and release.

Tariffs — *New user flow to purchase energy contracts.* **Link**

- Customer-facing application built with React, Vite, GraphQL, and ContextAPI.
- Bootstrapped project, implemented **modern CI/CD pipeline** with **GitHub Actions**, integrated **Sentry**, Google Analytics and guided frontend architecture decisions.
- In addition to ongoing feature development, I ensured **accessibility compliance** with WCAG 2.1 AA, 80% test coverage, increased **performance** with Lighthouse audits, and onboarded new team members to project.

Partner Portal — *Sonnen partners app used for the battery commissioning process.*

- Legacy app built with Redux, RxJS, webpack, REST API, where I developed new features and drove code refactorings to improve **code quality** and **maintainability**.

web-ui — *Component library based on new design system after company rebranding.*

- Led tech stack research and selection, onboarded design team on atomic design methodology, and contributed to building the library from scratch.
- Advocated for the early adoption of accessibility standards.

Responsibilities common to all projects:

- Drove engineering quality through **thorough code reviews**, focused on enhancing best practices, code base quality, **domain knowledge transfer**.
- Filled gaps caused by a fast-changing work environment: business requirements clarification, tickets writing, Refinements moderation, mentored junior engineers.
- Fostered **cross-team collaboration** between designers, devs and QA.

futurice GmbH — Berlin — August 2021 - November 2022

Software Engineer Consultant

RedBull München website **Link**

- B2C app with React, TypeScript, Remix, Contentful for content management and a serverless backend on AWS.
- Built features for a server-side rendered frontend application with Remix and styled-components.

Mobile application for FC Byern and RedBull München

- Developed features with React Native and TypeScript, collaborating closely with the UI/ UX team.

Technologies and tools

in-depth:
TypeScript
React
ContextAPI
GitHub Actions
React Testing Library
JavaScript (ES6+)
Vite
Storybook
Jira
POEditor
i18n

familiar:
GitLab
Sentry
Redux
Node.js
Sass
Cypress

used in past projects:
AWS Serverless
MongoDB
PostgreSQL
Google Firebase
React Native
Postman
Swagger
Figma
InDesign
Photoshop
Illustrator
Material-UI
jQuery

aaron.ai — Berlin — February 2021 - July 2021

Junior Fullstack Javascript Developer

- Owned features end-to-end as feature owner, developer and requirements engineer, aligning stakeholders on business and technical constraints.
- Designed and implemented UI elements in the absence of a dedicated design team.

dan pearlman — Berlin — 2017 - 2019

Freelance Graphic & Retail Interior Designer

I assisted their in-house teams in different phases of numerous projects, from 3D modelling, post-production in Photoshop and client presentations to CAD blueprints

Weiss - Heiten — Berlin — 2016 - 2019

Freelance Graphic & Retail Interior Designer

During my collaborations with Weiss Heiten, I was responsible for 3D renderings, floor drawings, and detailed furniture plans for high-end projects.

PIANO:TERRA — Bucharest — 2009 - 2015

Interior Designer

At PIANO:TERRA I was involved in all aspects of interior design projects, from the conceptual phase to supervising construction sites and project coordination

Soft skills

empathic communicator

cross-functional collaborator

detail-focused

solution-oriented

autonomous

out-of-the-box thinker

CERTIFICATIONS

aws — October 2026

AWS Certified Solutions Architect - Associate

aws — September 2026

AWS Certified AI Practitioner

aws — October 2021

AWS Certified Cloud Practitioner

EDUCATION

Spiced academy - Berlin — 2020

Full Stack Web development Bootcamp

Technische Universität – Berlin — 2018 - 2020

Computer Science

National University of Arts – Bucharest — 2007 - 2010

BA Faculty of Decorative Arts & Design Interior Design
