ioana tatu — Frontend Engineer

Berlin | +49 176 21114497 | tatu.ioana@gmail.com | new.ioanatatu.com | linkedin.com/in/ioanatatu | github.com/ioanatu

Frontend Engineer with 5+ years of experience building and delivering scalable, performant, user-centric web applications using React & TypeScript. Experienced across the full development lifecycle, including feature conception & planning, frontend architecture, state management, testing, CI/CD, deployment, monitoring and security. AWS Certified, with a design background and agentic engineering skills.

WORK EXPERIENCE

Frontend Engineer | sonnen GmbH — Berlin, Germany **12.2022 – 01.2026**

- Delivered Toolbox, a **B2B** microfrontend dashboard, from architecture research, PoC and technical decisions to MVP deployment on **AWS**. Tech stack: **React**, Vite Module Federation, **GraphQL**.
- Bootstrapped and developed Tariffs, a **B2C** energy contract purchase flow. Shaped frontend architecture and implemented CI/CD with **GitHub Actions**, **Sentry** monitoring and **Google Analytics**. Tech: React, **Vite**, **GraphQL**, **POEditor**, **Nest.js.**
- Improved Lighthouse Performance score by 25% through code splitting, lazy loading and asset optimization. Ensured **WCAG 2.1 AA** compliance, 80% test coverage, maintained **Cypress** E2E suites, and enhanced security with **CSP**, **CORS** and bot mitigation.
- Led design-system development: researched tech stack, built mobile-first component library (90% test coverage), introduced atomic design to designers and deployed **Storybook** to AWS S3.
- Maintained and refactored the legacy Partner Portal (React, **Redux**, **RxJS**, Sass, Webpack, **REST**), improving code quality and maintainability.
- Drove engineering quality through code reviews, mentoring and onboarding; collaborated with product, design and **QA** to clarify requirements, refine work and deliver user flows.

Software Engineer Consultant | Futurice GmbH — Berlin, Germany **08.2021 – 11.2022**

- Delivered client projects across Europe, including a server-side-rendered (**Next.js**) website for Red Bull München and a B2B mobile application for Royal Unibrew (Denmark) and Hartwall (Finland).

Junior Fullstack JavaScript Developer | Aaron.ai — Berlin, Germany **01.2021 – 07.2021**

- Owned features end-to-end (fullstack with **Node.js**), combining requirements engineering and development while aligning stakeholders on business needs and technical constraints. Applied UI/UX skills and worked on the design as well as on the frontend implementation.

SKILLS

Frontend & Backend: TypeScript, JavaScript, (semantic) HTML5, CSS3, React, Redux, RxJS, Context API, Sass, Next.js, Accessibility (WCAG 2.1 AA), **Responsive Design**, Node.js, Nest.js, Express
Architecture: Microfrontends, Component Architecture, System Design, GraphQL, REST
Testing: Jest, Vitest, React Testing Library, Cypress, TDD, Integration Testing
DevOps & Cloud: GitHub Actions, GitLab CI, AWS, Vite, Webpack, Git
Other tools & tech: Storybook, Figma, Sentry, Jira, Cloudinary, POEditor, Google Analytics, LaunchDarkly
AI-assisted development: Claude Code, GitHub Copilot, AI-assisted testing and refactoring

CERTIFICATIONS

AWS Certified AI Practitioner (September 2026)
AWS Certified Solutions Architect – Associate (October 2026)

EDUCATION

Full Stack Web Development Bootcamp — Spiced Academy, Berlin (2020)
Computer Science — Technische Universität Berlin (2018–2020)
