# ioana tatu — applying for Frontend Engineer

Berlin, Germany 10969 | +49 176 21114497 | tatu.ioana@gmail.com
https://www.ioanatatu.com | linkedin.com/in/ioanatatu | github.com/ioanatatu

Frontend Engineer with 5 years experience building scalable, performant and beautiful production web applications in React and TypeScript. Experienced across the full development lifecycle, including feature development, frontend architecture, state management, testing, CI/CD, deployment and monitoring, with strong GraphQL and design-system exposure. AWS Certified, with a design background that sharpens product and UX judgment.

## WORK EXPERIENCE

### Frontend Software Engineer

sonnen GmbH — Berlin, Germany 12.2022 – 01.2026

- Maintained Toolbox, a B2B microfrontend dashboard (React, Vite Module Federation, GraphQL) deployed to AWS S3 and served through CloudFront. Contributed to microfrontend architecture research, building the PoC and writing ADRs, setting up the CI/CD pipeline with GitHub Actions, building features and releasing MVP.
- Developed and deployed Tariffs, a B2C energy-contract purchase flow (React, Vite, GraphQL, Context API) with i18n localization (POEditor). Maintained 80% test coverage, integrated Sentry for monitoring and basic analytics, onboarded junior team members to project.
- Led tech stack research, onboarded design team on atomic design methodology, helped build web-ui design-system library (90% coverage) and deployed Storybook to S3 resource.
- Maintained Partner Portal, a legacy application (React, Redux, RxJS, Sass, Webpack, REST). Reduced bug occurrences by 10% by increasing test coverage.
- Improved Tariffs performance, decreasing load times by 45% via code-splitting, lazy loading, and asset optimization.
- Drove engineering quality through thorough code reviews, focused on enhancing best practices, readability, and maintainability, as well as knowledge transfer and mentored junior engineers.
- Filled cross-functional gaps in a fast-moving team: clarified business requirements, wrote tickets, led refinements, and partnered with design/QA on UI and user flows.

### Software Engineer Consultant

Futurice GmbH — Berlin, Germany 08.2021 – 11.2022

- Acted as a consultant on several projects, working with clients across Europe and experiencing different cultures: worked with Red Bull München on their website (a server-side rendered application) and with Royal Unibrew (Denmark) and Hartwall (Finland) on a B2B mobile application.
- Gained experience in the recruiting process and contributed to the Dev Breakfast, a knowledge-sharing initiative for developers across different projects, reading foundational texts like Robert Martin's *Clean Code* and discussing topics such as TDD, the Boy Scout Rule, and scalability to raise the technical bar across the Agency.

**Junior Fullstack JavaScript Developer**
Aaron.ai — Berlin, Germany 01.2021 – 07.2021

- Owned a feature end-to-end as feature owner and requirements engineer, aligning stakeholders on business and technical constraints.
- In the absence of dedicated design team, leveraged my UI/UX skills and worked on the design as well as on the frontend implementation.

**Graphic & Interior Designer**
Bucharest & Berlin 2009 – 2019

- 10 years in interior and graphic design — foundation for current product and UX sensibility (3D modelling, CAD drawings, conceptual phase, supervising construction sites etc.)

## SKILLS

**Languages**: TypeScript, JavaScript, HTML/CSS
**Frameworks**: React, React Native, Remix, Redux, RxJS, Context API, Sass, styled-components, GraphQL, TanStack Query, Node.js
**Architecture**: Microfrontends, Module Federation, Monorepos, Design Systems, Accessibility, Responsive Design, i18n, REST
**Testing**: Jest, Vitest, React Testing Library, TDD
**DevOps & Cloud**: Vite, Webpack, GitHub Actions, GitLab CI, AWS, LaunchDarkly
**Tools**: Storybook, Figma, Jira, Contentful, Cloudinary, POEditor, Sentry, Google Analytics

## PROJECTS

**design-system.ioanatatu.com** — Building my own design system and accessible component library. Deployed to S3, SSL registered with AWS Certificate Manager for the **design-system**. subdomain.
**ioanatatu.com** — Old portfolio, currently updating it with the latest teck stack. Client side deployed to netlify, CNAME for subdomain from AWS. Backend built with serverless framework, hosted on AWS, using S3 and DynamoDB as databases.

## EDUCATION

**Full Stack Web Development Bootcamp** — Spiced Academy, Berlin (2020)
**Computer Science coursework** — Technische Universität Berlin (2018–2020)
**BA, Interior Design** — National University of Arts, Bucharest (2007–2010)

## CERTIFICATIONS

**AWS Certified Cloud Practitioner** (October 2021)
**AWS Certified AI Practitioner** (September 2026)
**AWS Certified Solutions Architect – Associate** (October 2026)

## LANGUAGES

English — fluent | German — fluent | French — conversational | Romanian — native

2012 - IELTS Academic | 2004 - English Translator Diploma | 2003 - Cambridge Certificate | 2017 - TestDaF C1 for German
